Conversation: One more WIN

I just came from Essie's house and his view - and Olive's - have been completely restored, all in time for the 4th of July. The two end trees on either side of the row of pines on the Sawai property, and the greenery on the Page property are all adequately pruned. I asked Essie to take a photo of the view from both his and Olive's property and we will put it in the file in case it might be needed for future reference - as trees we know do grow!

Good work Vi and Syd!

Francine
