Subject: Issac property

To: "lpfriedman1@gmail.com" <lpfriedman1@gmail.com>

Regarding the Issac property at 1217 Las Pulgas Rd. I beg you not to allow the huge second story which has been proposed.

In the early 70s, the owners of the home at 1351 Las Canoas Rd. quickly built an ugly box like second story on their home. The neighbors or the association were never consulted. The owners at 1348, directly across the street were away for 3 months and upon returning found this box like second story obstructing their view. They sued and were rewarded all of \$10000. but this ugly second story has blocked the view of all who have lived at 1348 ever since.

Thus you can not let the Issacs build that huge edifice and ruin the integrity of our neighborhood just because they want it. I shall expect the Palisair Homeowners to sue them for violation of the CC@Rs.

I have lived in my home at 1359 Las Canoas Rd since 1975, always paid my dues and expect action from the Association AGAINST the Issacs. This is why I now pay \$200.00 a year in dues, is it not?

Sincerely,

Elaine Peters
