Hi Susan,

Thank you for contacting us regarding 1111 Las Pulgas Place. The construction plans will be available for viewing at the Board meeting on Monday night, July 20. The meeting begins at 7 PM but we will not get to the Plans Committee and the Seo property until around 8 PM. (Check our website palisair.org sometime after tomorrow for meeting location). You are more than welcome to attend. In fact, we encourage it. In the meantime, if you can get a copy of the full size plans from Danny Seo to review, that would be good too. I also hope to be able to email the PDFs to you shortly.

We are going to pull together a neighborhood meeting, however, two other potentially affected neighbors are out of the country so that will not happen now until after the Board meeting Monday night. If Danny offers to change his plans based on meetings with his neighbors, than we would need to re-review the plans with the changes. Once the final set of plans are reviewed, we will determine if there is a need for revised story poles. If that is the case, the neighbors will again be invited to view these story poles and the board members will go to each house that is affected by the new construction to see what, if any, view obstruction there is.

It is vitally important to the Board members that the neighbors have a chance to review and respond to the construction around them.

We have received your emails and have noted your concerns. If you have additional concerns, please feel free to email them to me.

Thank you for contacting us regarding 1111 Las Pulgas Place.

Best,

Kim Bantle
