Hi Kim,

I just met with Don Franzen and reviewed the current and original Seo plans. Don has an ocean view in one direction and a canyon and mountain view in the other direction.

It wasn't clear to him if his mountain/canyon view would be damaged by the current set of plans. However, as Seo has promised the 1119 Las Pulgas neighbors to revise his plans to protect the view from that property Franzen is concerned that the resulting revisions would attempt to capture lost sq footage by increasing the structure size on the Franzen side and then possibly infringe on their canyon/mountain view.

Diana, please put this email as a note to file in Admin as a record of this homeowner meeting.

Francine
