Kim,

Attached is the revised ancillary structure I mentioned in my last email to you.

The picture with (E) is the existing and the one's with (N) are the revised. As you can see, the exterior remains the same. Main difference is that instead of six 11 ft. tall Caissons below the structure, it is a solid wall. A much cleaner look.

Please advise what if anything needs to be done from the perspective of the HOA. I would very much like to finalize this permit next week so that we can start entire project.

Thank You in advance for all your assistance.
