Subject: Application for Preliminary Approval for Solar Panels

To: [ksbantle@gmail.com](mailto:ksbantle@gmail.com)

Hi,

Attached is my signed application for preliminary approval for putting solar panels on the roof at my house at 1150 El Medio Avenue. Also attached is the drawing. My contractor would like to start the installation next week.

I have a few questions:

1. Should I mail the original copy of the application with my check or bring it 563 Via de la Paz? If the latter, when?
2. Do I need to have preliminary approval before I have the solar panels installed? If so, how long will that take? I want to be able to get the tax credit this year.
3. I believe the City will approve after the installation is complete. Do you want to see the stamped approval by the City?

Thank you for your attention to this matter.

Jane Crist
