Dear Robert,

Thank you for installing the string line on you property today. I have been asked to represent the PHOA board with you in further communications about your fence.

This is to let you know that you are not allowed to begin installation of the fence on the northern part of your property until the board has had an opportunity to view the string line, to confirm whether it is in compliance or out of compliance with the October, 2015 board ruling.

Thank you,
Suzanne Weisberg

Subject: Re: String line

Hello Suzanne,

Thank you for your note. What I will make clear to you and everyone else on the PHOA Board is that this issue was discussed and reviewed in great detail in October resulting in a fence line height being defined and approved. I attach the final height approved by the Board. Based on that I have every intention of complying with the agreed upon height. You can do whatever you want to confirm the height, but I have no intention of discussing

heights with you or Francine or anyone else. An agreement is an agreement. So you can play games with Francine but I have no intention of doing so. I will be proceeding with the installation of my fence at the height approved by the PHOA Board in October.

Best regards,

Robert
