Hi Diana,

These should go on the website as well. They are dark but are renderings of the potential view of the new deck roof from the Koch's neighbors at 1348 Las Canoas Road. These have been revised since the plans were revised.

Thanks.

Kim

Kim and Francine,

Now that we have lowered the Observation Deck so that it is within the 15.5' max height, you can barely see it (just a small sliver of the outer-corner) from 1348 Las Canoas Road (the neighbors behind us). I had our architect re-do the images with the new measurements so that you can see this for yourself (see attached). It will not be visible at all from the street.

I will get you the hard copies of these and the plans as soon as I receive them,
Ilana
