I live at 1348 Las Canoas road and I strongly oppose any structures that are above the current buildings for the 1341 Las Canoas house. This house, which is the home over which my primary view crosses, already has a 2nd floor, against homeowner policy, and there are 2 large eucalyptus trees that are ever growing and blocking our view more and more as they grow. I have had these obstructions always. To approve this addition would be grossly unfair to us as we already have 3 very large objects obstructing our view with 2 continuously growing obstructions and one high and stationary obstruction.

I believe that as the home MOST AFFECTED by this "upgrade" this should not be approved!!!!!!

Michael T Guthrie resident of 1348 Las Canoas Road, Pacific Palisades, CA.
