Today at 10:13 AM

To Chuck Emerick

Hi Chuck, this is an email that Kim sent me last week. The email itself, as well as the attachments, should go on the admin website under 1160 El Medio (Gonzalez).
Diana

Hi Mike,

Attached please find Richard's calculations of the datum from your first submission. He took the average of the elevation of four distinct points as referenced in the "Application, Process and Fee..." document.

"i. Otherwise, if there has been no cutting or filling in the area of the current building pad (which inevitably many years later is now uneven), the Original Pad Elevation is defined as the average of the elevation of four distinct points determined by the Tract Committee on the uneven pad from a current survey"

Please let me know if you have any other questions.

Thanks.

Kim
