Gate lights

Hello Ron,

I have no objection to the lights housed on your driveway gate posts. In contrast to regular driveway and gate post lights installed to "illuminate the way" these lights are so dim and point downward that they do not unreasonably diminish my night view of the City and Village beyond. I appreciate your sensitivity to my needs with your choice.

Also I'm quite grateful to know that you are not going to put lights along the driveway to the street. I appreciate the quite effect of twinkling city lights beyond that the darkness provides.

Thank you!

Francine
