Hi Debbie,

We have received your message regarding your request for us to provide you with documents regarding trees. The two most important documents regarding trees are the CC&Rs and the tree and landscape non-compliance form. Copies are attached to this e-mail.

The key CC&R passage regarding trees is Article III Sec 9; other sections also apply.

If you continue to have difficulty accessing the website at www.palisair.org, please consider getting your computer repaired, or access the website at a library or via a friend's computer. There have been no complaints other than yours of being unable to access the website via PCs or Macs.

Sincerely,

The PHOA Board of Directors

Thank you,

My computer is working well.....

I have no idea why you assumed that it was NOT.

Deborah Streiber
