Hi,

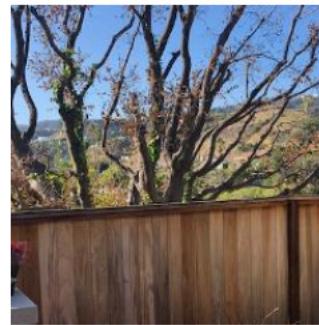

I went to look at the view from 1132 Las Pulgas. Here are some of my photos as well. For the website.

The tree in the second photo is dead and on the property of 1124 LP. It will come down with the construction. The other tree to the left is the owners of 1132 LP. They keep that for shade and thinned out so it doesn't obstruct their view.

Thanks.

Kim
